# Powertop Install Instructions:
*patent pending design

Welcome to the SPIDERWEBSHADE® JL family. Here are a few tips to make your install easier. You will need a few tools for this install however, Jeep® and SPIDERWEBSHADE® provide everything you will need to make this install a breeze.
1 Feed the 2 header rail straps in-between the windshield and the header rail. Be sure the buckle is facing down. Use the buckle to fasten taut.
2 Locate the correct (10) factory T25 screws to remove and add the custom Spider-Nubs then replace the (10) T25 screws. 5 per side.

passenger front

passenger rear

3

Use the leverage strap to pull the shock cord in-between the Power top and the roll cage. This will be a snug fit.

4

Attach the (10) shock cord loops to the new SpiderNub mounting locations and your install is complete.
