INSTALLATION:

Align the Mag-Lite mount holes to factory holes on the seat rail and bolt using the fasteners supplied. The flanged nut goes on the underside of the seat rail as shown. You can mount on either side of the Jeep (LHS/RHS).

If your JK does not have matching holes on the seat rail as with older JK's, align the bracket to the existing hole, mark and drill a second hole to mount.

Your installation is complete. If you have questions regarding this installation please contact us at info@maximus-3.com or call 248 821 6654.
